Children's Drawing

Our elementary age curriculum is designed to teach basic to advanced drawing skills, art techniques and vocabulary. We believe that drawing is the bedrock skill required for future artistic success. We give them skills to express their creativity, and believe that all children can (and should) learn to draw. We provide all materials and teach new lessons each week in a positive and nurturing environment, which brings out the best in each child. You'll see increased art abilities, learning skills, self-confidence and self-esteem. Ages 7-12.

Preschool Workshops - Birds, Sea & Energy

In this series of classes, we invite preschoolers to investigate the different shapes and structures found in nature. They will examine the invisible world and learn about reflection and symmetry. Then we take to the skies to help them discover details about our fine feathered friends - birds, as well as those regular floral visitors - the butterflies. Children will also explore the sea shore and learn more about its various inhabitants. Additionally, we introduce them to the concept of energy so they can begin to understand how movement really happens. Ages 3-5.

Bollywood Indian Dance

Classical dance in India is an eloquent expression of an ancient civilization. Shiva, the god of dance, represents both creation and destruction, while the dance itself nurtured in the precincts of the temple and dedicated to the divine, is the highest form of worship. In ancient India, the arts of dance, drama and music were fused into one, as seen in the treatise called the Natya Shastra -the Science of Dramatics, written by the sage Bharata around the second century BC in Sanskrit. We are dedicated to promoting the classical dance forms of India through instructional classes and professional performances. Our artistic programs maintain Indian American's connection to their cultural heritage, and strive to expand the tradition's expressive range, fostering its stylistic evolution in the United States. Jr. Challengers - Youth/Teen Tennis

Students begin playing in cooperative and match play situations. The emphasis will be on developing the match play skills of not only offensive tools, but defensive tools. This is also a good entry level for adolescent age students. Students will be working on the mental and emotional skills of keeping their focus on the job at hand regardless of the score. They will begin developing the defensive skills of reading their opponent and the situation, learning the tactics and strategies to not only visualize a game plan, but execute it, and gaining the confidence to stick to a game plan. Instructor to student ratio is 1:6. The program is certified to begin testing and development using the GRIPs curriculum. Skill level for entry into this class is commensurate to the Orange and Blue levels (for more info on the GRIPs program, go to www.barrypoole.net or www.gripsprogram.com. Ages 10-15.
